

Lavina Arsyia Aryanto

Full-Stack Developer & AI/ML Enthusiast

Indonesia | +62 895 3405 25328 | arsyalavina@gmail.com | arsyalavina.dev | linkedin.com/in/arsyacoo | github.com/Arsyacoo

PROFESSIONAL SUMMARY

Informatics undergraduate focused on building practical digital products using web technology, data, and artificial intelligence. Experienced in developing full-stack web applications, AI-assisted tools, dashboards, and machine learning prototypes with React, Next.js, FastAPI, Laravel, Python, and modern AI APIs.

EDUCATION

Bachelor of Informatics

Universitas Amikom Yogyakarta | 2023 - Present

Software Engineering Student (RPL)

SMK Muhammadiyah 1 Yogyakarta | 2020 - 2023

PROJECT EXPERIENCE

PDF Insight AI

Full-Stack Developer | 2026

- Built a React and FastAPI document analysis platform for PDF upload, summarization, quiz generation, flashcards, comparison, and RAG-based chat using Groq API.

AI-Powered Healthcare Assistant

Frontend Developer | 2026

- Developed a React healthcare education prototype with symptom guidance, AI chat, medicine information, prevention tips, and medical disclaimers.

Digital Transaction Fraud Detection

Machine Learning Developer | 2026

- Created a Random Forest fraud detection prototype with baseline comparison, PR-AUC evaluation, anomaly-score ablation, and Streamlit dashboard.

IDX Monitor

Full-Stack Developer | 2026

- Built a FastAPI and React dashboard for Indonesian stock monitoring, data visualization, and potential whale activity observation.

WORK EXPERIENCE

Web Developer Intern

Universitas Jenderal Achmad Yani (UNJAYA) | 2021 - 2022

- Supported web development and IT support tasks while strengthening practical software development fundamentals.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, PHP, HTML, CSS, SQL

Frontend: React, Next.js, Tailwind CSS, Bootstrap

Backend & Database: FastAPI, Laravel, REST API, MySQL, PostgreSQL, MongoDB

AI/ML & Tools: Scikit-learn, Pandas, NumPy, Random Forest, Streamlit, Jupyter Notebook, RAG, Groq API, Gemini API, Git, GitHub, VS Code

ADDITIONAL ACTIVITIES

- Built end-to-end portfolio projects demonstrating full-stack development, AI integration, and data-driven application workflows.
- Practiced structured software development through problem analysis, implementation planning, iterative testing, and project documentation.
